A Single System For All Your Shipment

Gain shipment visibility for every order, at every step of the way, with the ability for everyone involved to instantly pull it up on-demand & respond with in-app messaging.

The screenshot displays the ExPAC web application interface. On the left is a sidebar with navigation links: Dashboard, Shipments, Invoices, Quotations, Customer Party, Tariff Sheet, Items / SKU, Reports, and Warehouse. The main content area shows details for shipment **SEA092643**, which is **In Transit** and last updated 4 hours ago. It includes a status timeline from **In Transit** to **Delivered**, a task list with one pending task to upload a packing list, and a map showing the route from **Newton** to **Somerville**. A **CO₂ Emission** of 14.87 Kg/TTW is displayed. Below the map, a **Live Status** section provides a description of the shipment's location and mode. A **Transit Details** section lists key milestones: **PLACE OF PICKUP** (Shenzhen Logistics Park, Guangdong, China), **PLACE OF RECEIPT** (Shenzhen Port, Yantian Terminal, Guangdong, China), **PORT OF LOADING** (Port of Shenzhen, Guangdong, China), **INTERMEDIATE PORTS** (Show All), and **PORT OF DISCHARGE**. A **Shipment Details** table lists job #SEA9987254, shipment type (Import), term (Door To Door), PO# (Order Ref), MBL (MBL-63413), vessel name (SINAR SORONG), and voyage no. (SEA83523). A **Parties** section lists the shipper (Global Exports Inc.) and notify party. An **Activities** overlay on the right shows a conversation between Mr. Christopher Nelson and John Doe regarding packing list updates.
